

**Terumo Pranex Academy 6-9 February 2018, Tokyo**

**Terumo Medical Pranex: training healthcare professionals who underpin advanced medicine**

In addition to providing high-quality, and safe products, training the those who lead and support a new type of healthcare is an important element for "Contribution to Society through Healthcare." We have established the facility "Terumo Medical Pranex" for this purpose. In June 2002, the west wing was opened, equipped with specialized rooms for providing training to physicians and clinical engineers in the proper use and techniques of interventional systems products, etc. Then in 2007, Terumo opened the east wing, which provides a realistic hospital setting with the latest in medical facilities and devices as well as a wide variety of simulators. Users are able to train in team-based medical treatment in a variety of realistic settings including surgery. Together with the government agencies and academic societies, the facility is intended to improve medical education. As of January 2007, 10,000 people were recorded to have visited the facility, and by October 2010, addition of a total of 50,000. As of January 2012, there had been a total of over 70,000 visitors.

February 6th 2018 Tuesday	
10:00 - 12:00	Terumo Inverventional System Management Meeting
12:00 - 14:00	Lunch
14:00 - 18:00	Complex Radial Invervention Live Case from Mitsumi Memorial Hospital
February 7th 2018 Wednesday	
08:00 - 10:00	Ashitaka Medical Devices Factory Visit
10:00 - 12:00	Training on Manufacturing Lines and Processes: Importance of Quality and Safety on Medical Device Manufacturing
12:00 - 14:00	Lunch
14:00 - 18:00	Training on New Generation Devices for Radial Invervention and Chronic Total Occlusions 15:00 - 16:00 Radial Sheaths and Guide Wires 16:00 - 17:00 PTCA Ballons and Microcatheters 17:00 - 18:00 Coronary Drug Eluting Stents
February 8th 2018 Thursday	
08:00 - 09:00	Pranex Research and Development Center Visit
09:00 - 14:00	Trainings on Simulators 09:00 - 11:00 - Bail Out Technique 11:00 - 12:00 - Bifurcation Techniques 12:00 - 13:00 - 3D OFDI Imaging 13:00 - 14:00 - Nanto Technique
14:00 - 15:00	Lunch
15:00 - 18:00	Transradial Invervention Course
February 9th 2018 Friday	
08:00 - 13:00	Technical CTO Training - part 1 Chronic Total Occlusion Intervention Live Case from Mitsumi Memorial Hospital
13:00 - 14:00	Lunch
14:00 - 18:00	Technical CTO Training - part 2
